

GNSA Studios Core Basics

1974-2020 and Beyond

It's the Journey, not the Destination!

The Destination provides the goal and motivation, so in that light, the Destination is essential, necessary, and important. But if people are polarized and not united during the Journey to the Destination, what's the point of it all?

To reach the Destination with all who participated in the Journey, and if they are hateful and disrespectful with each other when they reach the Destination/goal, what's the point?

In life, and in all industries, organizations, nations, communities, and families, it's a never ending Journey/Destination cycle until our last breath on earth.

I hope and pray we learn to cooperate, collaborate, we learn to Explore our Differences and Discover our Similarities, so that we can Learn how to walk this never ending Journey of Life in a more amiable atmosphere of inspiration and motivation.

EXPLORE, DISCOVER, AND LEARN.
